

INDUSTRY PARTNERS

Boreal Health Partnership is the private partner consortium selected by the Government of the Northwest Territories to design, build and finance the Stanton Territorial Hospital and maintain it for 30 years. The finance partners are Carillion Canada Inc., HOCHTIEF PPP Solutions North America Inc. and Bird Capital Limited. The industry partners who will design and build the hospital include: Bird Design Build Construction Inc, Clark Builders, and Kasian Architecture Interior Design and Planning Ltd. The engineering teams include Crossey Engineering Ltd. and Weiler Smith Bowers Consulting Structural Engineering. Carillion Canada Inc. will maintain the hospital.

Carillion Canada Inc.

www.carillion.ca

Carillion Canada Inc. is one of Canada's leading integrated support services companies, with extensive construction capabilities, a substantial portfolio of Public Private Partnership (PPP) projects and a sector-leading ability to deliver sustainable solutions. Carillion has a portfolio of award-winning work in areas vital to society and is a recognized leader in the development and delivery of integrated infrastructure solutions in the Canadian PPP market. To date, Carillion has led the development, financing, and services associated with 10 PPP projects in Canada, including the first two to close in this country. Carillion employs approximately 6,000 people in Canada and over 40,000 worldwide, with established businesses in the United Kingdom, the Middle East and the Caribbean. The company has achieved numerous awards of recognition, including Canada's Safest Employer Award (2014) and is bronze certified in Progressive Aboriginal Relations through the Canadian Council for Aboriginal Business. Carillion has an annual revenue of approximately \$1 billion in Canada and \$7.5 billion globally.

HOCHTIEF PPP Solutions North America Inc.

www.hochtief-solutions.com

HOCHTIEF PPP Solutions North America Inc. was founded as a subsidiary of HOCHTIEF Solutions AG at the beginning of 2008 and serves the growing PPP markets in the USA and Canada. HOCHTIEF Solutions AG develops and realizes concessions and operates projects in the segments of transportation and social infrastructure, and is also active in the energy sector. HOCHTIEF Solutions AG consolidates the core business of the HOCHTIEF Group in Europe and in selected regions worldwide. The company plans, develops, builds, operates and manages real estate and infrastructure facilities. HOCHTIEF is considered a market and innovation leader.

Bird

www.bird.ca

Founded in 1920 in Western Canada, **Bird** is a leading general contractor in Canada with offices coast to coast. Bird Design-Build Construction Inc. has been providing construction services to a long list of new and repeat clients for 95 years. The company also provides pre-construction services and has acted as a key member on many recent PPP projects. Bird is a publicly traded corporation with employees forming a significant shareholder group. This enhances the degree of commitment employees show their clients. Their hands-on approach to business has given Bird an edge with quick decision making and adapting to clients' needs.

Clark Builders

www.clarkbuilders.com

Clark Builders is an Alberta leader in the delivery of complex design-build and construction management projects. Based in Edmonton, Calgary, Yellowknife and Saskatoon, with annual volumes exceeding \$500 million and over 700 Alberta-based employees, Clark has Alberta's largest field work force of any construction manager/general contractor along with a proven track record of delivering complex projects on time and on budget. Clark began operations in 1974 in Yellowknife where the company began to develop a reputation as a leader in the delivery of complex design-build projects in remote locations. The design-build and logistics management expertise developed through those many remote projects forms the foundation of Clark's operations and has resulted in a culture of efficient, professionally managed projects throughout all of the company's geographic locations and a long string of successful results and satisfied clients. Clark's success has been recognized with such recent accolades as being named as one of Canada's Top 50 Best Managed Companies (Deloitte/CIBC/National Post/Queens University), Canada's Top 50 Best Employers (AON Hewitt) and the Alberta Contractor of the Year for 2011 (Merit Contractors Association/Alberta Venture Magazine).

Kasian Architecture Interior Design and Planning Ltd

www.kasian.com

As an integrated architecture, interior design and planning firm of nearly 300 talented and dedicated team members, **Kasian** strives to enhance the human experience through great design. Kasian's passion is strengthening connections between people and places by creating built environments that inspire and improve lives – turning clients' visions into reality. Since its founding in 1983, Kasian has developed into one of the world's top 100 integrated design firms. Offices in Vancouver, Calgary, Edmonton, Toronto, and Doha enable Kasian to engage with clients locally and abroad in all market sectors. From multi-billion dollar healthcare campuses to finely-crafted workplace interiors, Kasian's breadth of expertise, combined with their continued thirst for knowledge, has been the driving force behind great design and strong relationships for over 30 years.

Crossey Engineering Ltd. (CEL)

www.cel.ca

Crossey Engineering Ltd. (CEL) is a multi-disciplined consulting engineering firm that has been in existence since 1963. Since that time the firm has continued to focus on Mechanical and Electrical engineering for owners and designers of buildings, and added the following design services: Telecommunications; Lighting Consulting; Sustainable design, Audio Visual, Security and Commissioning to its service portfolio. With a staff of 125 engineers, designers and LEED® Accredited professionals, CEL is capable of addressing client needs.

CEL is dedicated to ensuring that buildings function efficiently – over the short and long-term – while working within clients' budgets, timetables and aesthetic visions. CEL has worked with clients throughout the world on large and small projects spanning a wide variety of industries and sectors.

Weiler Smith Bowers (WSB) Consulting Structural Engineering

www.wsb-eng.com

Based in Vancouver, BC, **Weiler Smith Bowers (WSB) Consulting Structural Engineering** has provided consulting services for residential, light industrial, retail, and institutional buildings since 1992. They have maintained a high level of quality customer service while providing a wide variety of services to Building Owners, Architects, Federal Agencies, Local Governments and Contractors. The firm's success is due to their strong work ethic, exceptionally talented and qualified staff, and their ability to provide client responsiveness, cutting edge technical excellence, economical, innovative, and practical structural engineering solutions. WSB's aim is to provide an economical structure that complements the architect's design and meets the requirements of the client and end-users.
